SUMMARY

I am a Student of Computer Engineering, honing my skills in full-stack web development. My favorite part of programming is problem-solving—there's nothing quite like the thrill of finally cracking a tough bug (or realizing it was just a missing semicolon). My core stack includes C++, JavaScript, React, Node.js, along with experience in responsive Design and Databases. I'm always eager to explore new technologies and stay ahead of the curve. I'm actively looking for a full-time position as a software developer or full stack developer where I can build awesome applications, sites, optimize performance, and maybe even automate some tedious tasks along the way. When I'm not coding, you'll find me playing cricket, watching movies, or diving into random tech rabbit holes. If there's a cool new framework, you bet I'm testing it out!

EXPERIENCE

Web Development Intern

TatvaSoft Private Limited

📅 05/2024 - 06/2024 📍Ahemdabad, Gujarat

- Internship and training in web development focusing on practical application of web technologies
- Exposure to real-world software engineering processes and best practices

Full-Stack Development Intern

PrernaGati and Technology (PG TECH Solutions)

📅 01/2025 - Present 📍Mohali, Chandigarh

- Internship and training in full-stack development for enhancing software delivery processes

EDUCATION

Bachelor of Engineering in Computer Engineering

A.D Patel Institute of Technology

📅 2021 - Present 📍New VV Nagar, Anand, Gujarat

CGPA:7.41

Secondary School Certificate

Govt. High School Sail Kouri Ber

📅 2018- 2019 📍Udhampur, Jammu & Kashmir

Percentage:77.4%

Higher Secondary Certificate

Govt. Model High Sec. School Boys

📅 2020 - 2021 📍Samba, Jammu & Kashmir

Percentage:87.0%

CERTIFICATES

Developing Responsive Websites Using HTML5 & CSS3

C++ for C Programmers

SKILLS

Languages: C++, Java, JavaScript, SQL

Web-Development: HTML5, CSS3, JavaScript

Libraries & Frameworks: React.js, Bootstrap,

Tailwind CSS

Databases: Google Firebase, MySQL, PostgreSQL,

MongoDB

Tools: Git, Github, Visual Studio

PROJECTS

Personal portfolio website

🔗 https://github.com/gourav-017/Personal_portfolio_project

- Easy-to-use navigation with smooth scrolling and dynamic JavaScript features.
- Responsive Design. Adapts seamlessly to all screen sizes using CSS media queries for mobile and desktop views.

Music-Player

🔗 https://github.com/gourav-017/Music_player_project

- Created a simple music player using HTML, CSS, and JavaScript
- Incorporated features like song playback and pause functionality

Weather-App

🔗 https://github.com/gourav-017/Weather_app_project

- Developed a weather app integrating a public API to fetch real-time weather data
- Designed an intuitive interface to display weather conditions and forecasts

Face-Recognition System

🔗 https://github.com/gourav-017/Face_Recognition_System

- Developed a real-time face recognition system integrated with a database.
- Designed a user-friendly interface for efficient identification and tracking of individuals
